MOTOR COLLISION.

TAMPERING WITH THE GEARS.

A PANTRY BOY CHARGED:

During the absence of driver of a motor car belonging to Mr. Harry Kong which had been left outside the To Yuen Restaurant near the Whitty Street tram terminus yesterday afternoon, an unemployed pantry boy apparently tampered with the gears as the vehicle ran backwards and collided with a stationary tram car causing damage to the latter to the extent of \$25.

The pantry boy was charged at the Central Magistracy this mornwith driving without a licence. He said that he was given a ride in the car along with another from near the Bowrington Canal. During the absence of the driver he accidentally stepped on the self-starter lever and the car ran backward. He pleaded that he was quite ignorant of the mechanism of a motor car.

The Magistrate (Mr. Lindsell) considered that the charge ordered that a fresh charge of causing wilful damage to the tram car be made out against the defendant. The case was adjourned until to-morrow morning to enable the other man, who stated to be a licensed driver, to be also brought into Court to say how the accident happened.

CONFISCATION ORDER CONFIRMED.

At the re-hearing of the case in which an order for confiscation of about 70 piculs of raw tobacco leaf, was, made on December 80. considerable arguments were put forward by Mr. Leo d'Almada when he submitted that he had proved ownership after the examination of a Chinese tobacco dealer from the country. He further submitted that the leaf in its present state was not dutiable. and he was prepared to prove that such leaf was being imported into the Colony without any permits. He asked for an adjournment to

enable him to do this. At the close of the case, Mr. Lindsell said that two offences had been committed which rendered the tobacco liable to forfeiture, these being the omission. in making a report of the arrival and the moving of the cargo to a harbour junk without permission. He could not agree to a further adjournment as under the section under which the application was granted it was Mr. d'Almada's duty to look for every possible offence and be on his guard. He proposed to make good the order made for confiscation.

TREASURES OF THE DEEP SEAS.

SALVAGE OPERATIONS.

Will the Union des Entreprises Sousmarines succeed in its great attempt to salve the treasure on board the P. & "O. mall-boat, "Egypt," sunk in sixty fathoms of water off Ushant after a collision with the French s.s. "Seine?" More than a million in gold and silver lies in her strong-roomand has fain there these fast three

Diving for the treasure in sunken ships on the floor of the sea is a strange and fantastically difficult undertaking (says Carleton Ashwell, in the "Sunday Chronicle"). The French salvage concern which has contracted to make the attempt on the "Egypt" possesses accurate charts of the wreck's location; all the latest scientific and engineering appliances, a staff of intrepid divers, specially equipped ships—and yet the success of its treasure hunt is by no means certain.

The sea plays queer tricks with the broken vessels which sink into its green depths burdened with a ton or two of gold and silver, and a few fortunes in jewels. The gigantic pressures of the water crushes the timber and steel bones; currents and eddies carry the wreckage flar from the spot | where it disappeared; rocks roll; down upon it from the subterranean mountains, the Alps fortune which has, apparently, under licence from the Duke of and the Himalayas of the deep fallen from the skies. seas; mud engulfs it, and clay silts over it.

BEYOND HUMAN REACH.

That is why, of the illimitable British Government, have golden treasures lying on the sea bed in the track of the well-worn seaways, within reach of divers the Irish coast during the war with up-to-date equipment, only an infinitesimal portion has been recovered to date.

ocean treasures lies beyond the when Spain warred with England reach of man-at least, so far as on the high seas. we cam tell to-day. It has been estimated that gold, silver, and known treasure ships is that jewels to the total amount of ten thousand millions of pounds are scattered over the floor of the sea at depths of 150 fathoms and more-depths which would crush a diver like an egg-shell under a steam hammer and flatten even a giant armour-plated submarine like a lemon under the squeezer.

Of the treasure lying well or a triffe beyond the safe diving compared to the aggregate value £1,000,000,000 has actually been other valuables strewn over the one big salyage concern. HONGKONG TIDE.

Mr V. Rose

The tide-table given below has been compiled at the National Almanac Office in London from the result of the analysis of observations taken by means of an automatic tide-recording machine in the Water Police Basin at Taim Sha Tsui during the years 1908-9. The zero of the table corresponds with

the zero of the sounding in the Admiralty Chart, which has been found to be 4 feet 8 inches below mean sea-level. To obtain the depth, of water on the tide gauge at the Victoria Naval Yard add 3 feet 4 inches, and on the gauge at Lamont Dock, Aberdeen, add 10 feet 4 inches to the height given in the table.

HONORARY DEGREES. Honorary degree giving, like charity; should begin at home. To-day's ceremony at the University of Hongkong meets the case. The recipients of honorary degrees are, almost without exception, local men. The name of Mr. R. Ponsonby Fane may not quite a household one found that the be Vice-Chancellor, these occasions, acts as public orator, has made out a good case why a degree honour should be given in Mr. Fane's case. Cricket not Mr. - Fane's sole hobby: The University has had a very staunch friend in him. Perhaps we should say the students have-which is probably the same thing. For to his disinterested work amongst them he has brought to bear a cultured into the thoughts and desires of the Chinese students which comes from a willingness to grasp main essentials in the best that the Chinese student has to offer. The simply be a question of speed. Hon. Mr. Kotewall's name is universally known. Each departing official pays tribute to his sagacity, his ability, and to his willingness to shoulder responsibility. If a fierce light beats about a throne, it beats also about those who figure in the public eye. The time has not yet come to write the history of the University of Hongkong. When it does, virtues of human nature—the West Point seat of learning is.

This applies are quite friendly. most strongly in the city itself, where there is 'no excuse, either for the offending motorist, or for the authorities who permit him to infringe the rights of others. The particular offence which we have UNIVERSITY JUNIOR LOCAL in mind is the practice of speeding across street intersections. Motorists are permitted to drive at any speed they choose in the Colony provided they do not drive to the danger of the public. Having seen the way this is interpreted by some of them in the very heart of the city, we are strongly of the opinion that a speed limit is urgently required for street intersections. Six miles an hour is the limit imposed in some cities for busy corners, and we think it might well be adopted here. Such a regulation would be no hardship on the cautious and courteous motorist and it would serve mind. Mr. Fane has that insight curb the reckless. The matter would not then be one of leaving it to the discretion of an Indian pointsman to decide whether or not a motorist was driving to the danger of the public - it would

Red pillars reached to the high ceiling, all ablaze with gold and coloured decorations, where the pigeons cooed. Gray floating incense during ceremonies fill the spaces of the darkened room rising from censers made of bronze. A huge red altar table stood before the sacred figure of the sage, beyond which had been placed standards of gold and green and blue, holding the altarjars of yellow cloisonné.

On a colossal altar all of red and gold with yellow satin curtains draped before it upon which o azure dragons coiled, sat Confucius in quite heroic proportions. Red columns flanked both sides, upon whose surface realistic golden dragons wrapped themselves. The story is that at his birth they both appeared to visit him! A tablet with a gold carved frame hangs high above bearing the legend: "Master Exemplar for all the Ages."

Very benign he looks, holding before his breast, between clasped hands, the audience tablet curving towards him where his eyes may rest. Always fastidious in life, his robes to-day are rich and ample with voluminous flowing sleeves; his long mustache, black ears, above the lobes, are fastened slender chains. His flattened hat carries a heavy string of gleaming beads which fall down to his very eyes, and placed before him is his sacred tablet carved in red and

Tokyo, Jan. 11. The Foreign Office spokesman states that the Japanese Government is much worried over the "Brazilian incident" as the Black Dragon, Taikosha, and other reactionary societies are visiting the Foreign Office and demanding the recall of the Brazilian Ambassador, Señor Delimae Silva, as his action is regarded as an insult to the Imperial House.

The Government, however, is still anxious to prevent the affair becoming a diplomatic' incident and is leaving the Police to settle the matter though it is feared that the Opposition parties may use the case for home political purpose against the Government.

The Body of the "Queen Mother" (Queen Alexandra) is shown lying in state in the chapel at Sandringham.

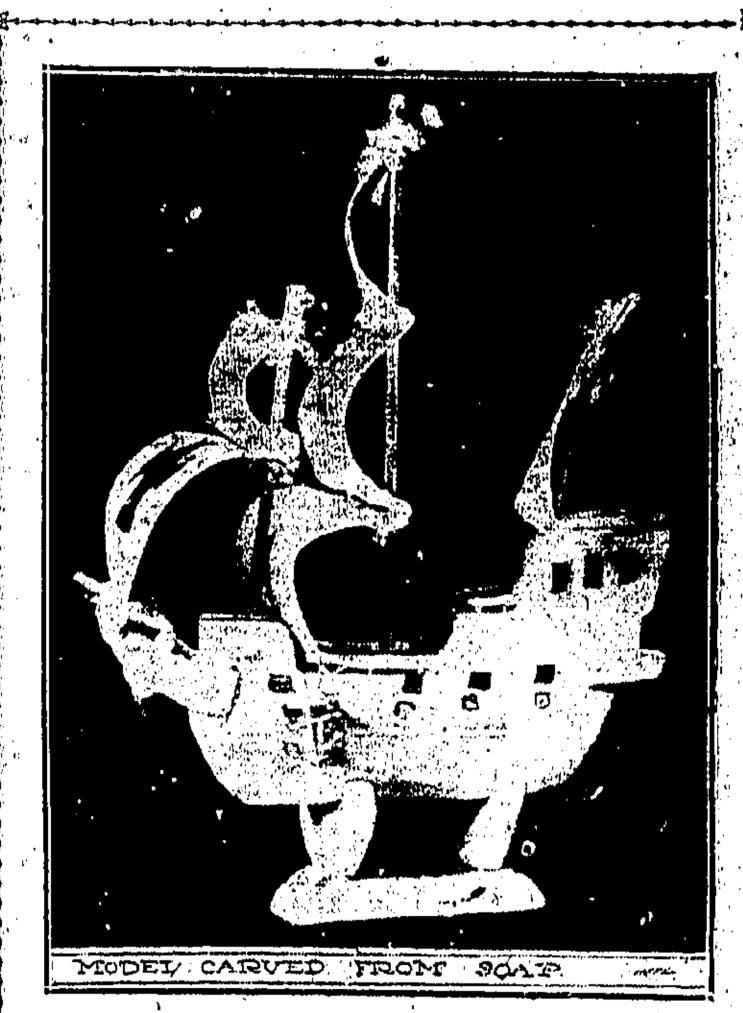

Clara Bauer, seventeen, the healthiest girl in Indiana, has been adjudged! 99 per cent, perfect in the search to-find the most perfect woman as conducted in conjunction with the International Livestock Exposition in Chicago.

In memory of Queen Alexandra, the Guard of St. James Palaco, stood at attention in the courtyard, with its colours draped.

For his contributions to pharmacology, Dr. John J. Abel, of Johns Hopkins University, is the first to receive the annual award of \$2,500 offered by the Research Corporation to the man who makes the most outstanding contribution to science without reward to himself.

This interesting model of one of the Spanish Armada, fushloned. from soap by a girl under fifteen, was exhibited at the Soap Sculpture Exhibit at the Art Centre In New York.

CAPE HURBERY HARTINY

Captain Herbert Hartley, of the "Leviathan," set a new record for the liner, when he crossed the Atlantic in five days, six hours and twenty-six minutes. Senstor Reed Smoot, of the American Debt Commission, is certain that France will speed her payments. Captain Lemaltre, French ace, and winner of a trophy at the International Air Races, was dangerously hurt in a motor accident in France. Mr. Stanley Baldwin, Premier of England, his wife and daughter, were unharmed when their motor car was wrecked in a collision in England.

Here he is, himself in person, ready for his annual visit to the poor of dogdom. The good little pupples received a biscuit or a nice meaty bone from him during the feative
